

## **Xylo in the Limca book of records**

Xylo has done it yet again. Couple of weeks back Xylo had rewritten the records book for fastest drive in a **4 wheel vehicle from West to East**. Team clocked another achievement of fastest south to north drive in a 4 wheel vehicle. The team comprising of Harinder Sidhu (from Tech Mahindra) & Karanbir (from Overdrive) drove in Xylo that was specially made for the drive by the brand team from Kanyakumari to Leh in flat 79 hours. The Xylo was specially equipped with ABS feature & with eye-catching decals all around the vehicle.

The customer care team did a splendid job of supporting the drive by informing all the dealers thereby keeping them ready to tackle any problem reported on this vehicle in shortest possible time, Also the Chennai team supported by giving required spare parts along with the Xylo at the start of the journey.

Kudos to all the people involved as Xylo has stormed the country – from West to East & from South to North in shortest possible time.
